

Recovered REGCAL072 file from 11 May 2010

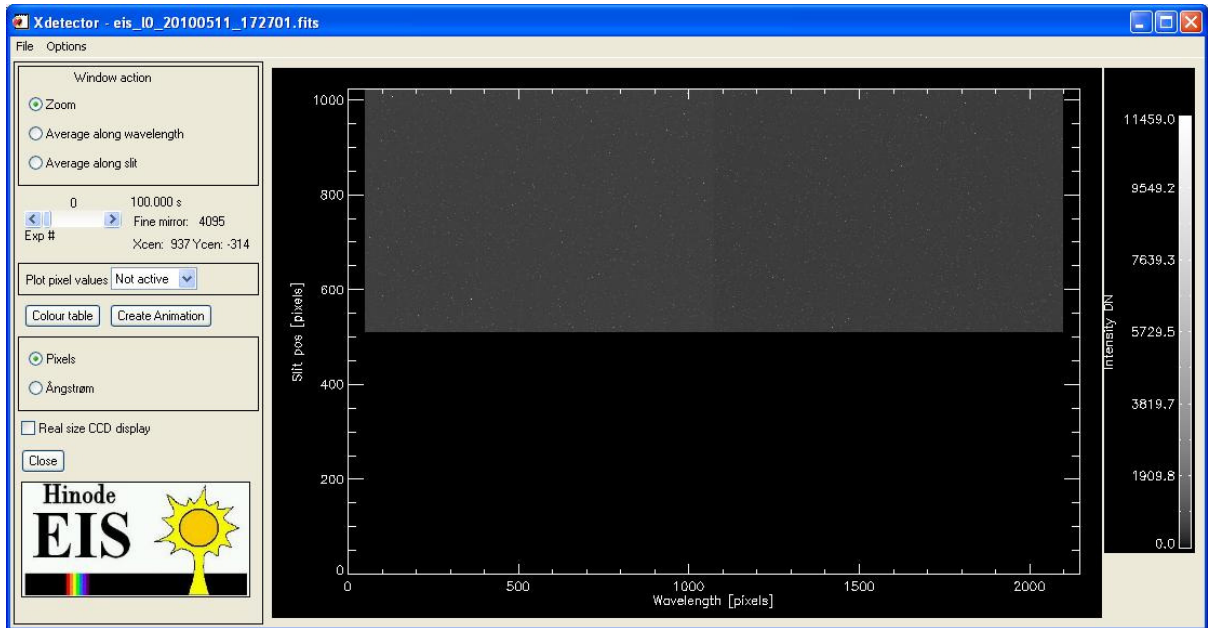

Long wavelength CCD, 1st exposure complete (data ok)

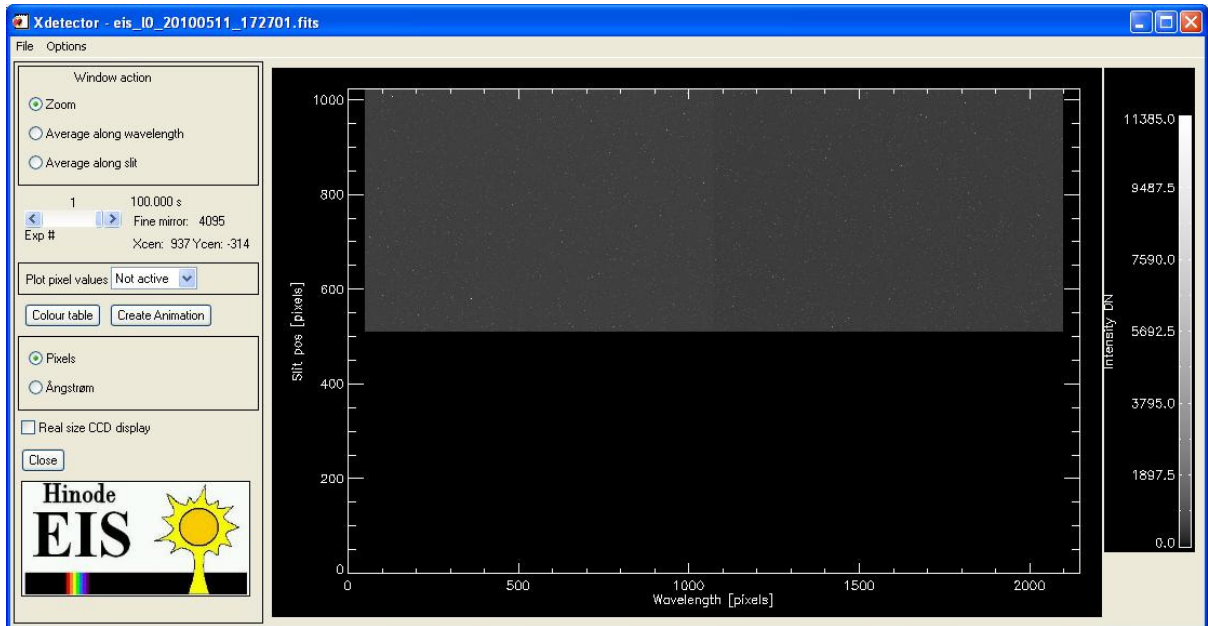

Long wavelength CCD, 2nd exposure, right side of CCD missing, left side data ok

Note: 2 exposures are required in the production of hot and warm pixel maps for cosmic ray removal.

Short wavelength CCD, 1st exposure complete (data ok)

Short wavelength CCD, 2nd exposure complete (data ok)
